

FSRH Essentials in Primary Care Course

Are you a primary care practitioner interested in developing your **sexual and reproductive healthcare** knowledge and skills?

Then the **FSRH Essentials in Primary Care** course is for you.

This Sexual and Reproductive Health Essentials Course is aimed specifically at healthcare practitioners working in primary care settings. It provides an interactive day with scenario-based learning, presentations, time for discussion, questions and role play. It is relevant for those needing an introduction to SRH.

These courses are delivered in a variety of locations across the UK. SRH Essentials is not a competency-based course and it is not assessed.

This course will help you develop the skills and confidence to consult with patients about their sexual and reproductive healthcare needs.

At the end of the course, you will be able to:

- Recommend an appropriate method of emergency contraception
- Review the COC, POP and injection contraceptive methods
- Carry out sexual health risk assessments
- Identify when patients are at risk of STIs

Who is this course for?

- GP trainees
- Nurses
- Physician Associates
- Paramedics
- Pharmacists
- Other Healthcare Professionals working in Primary Care
