

NHS Health Check

1st April 2024 - 31st March 2025

The NHS Health Check is for adults aged 40-74 in England to spot early signs health conditions. In the Wakefield District, practices deliver the majority of NHS Health Checks, and GP Care Wakefield provides additional checks on evenings & weekends.

5,397

Healthchecks completed by GP practices across the Wakefield District, supported by the GP Care Enhanced Access service.

Additional activity and support for practices

Over 40 staff across the district attended Healthcheck training through the Wakefield Resilience Academy

CVD prevention project pilot completed. 16 outreach events helped to strengthen networks with local community groups and partners

LOOKING TO THE FUTURE

Workplace Healthchecks - working with Wakefield Council on delivery plans

Healthchecks e-learning package for staff

Patient feedback

“Made to feel really comfortable because I wasn’t sure what to expect but the nurse was brilliant”

“My blood results were given to me in a nice manner and suggestions were put forward to me how to improve”

“It was very thorough and she answered all my questions”

“The whole experience was quick and efficient”

“The nurse who did my check as amazing, she was caring, helping at explaining things.”

“It was refreshing to see someone who genuinely cares about your welfare.”
