Wakefield Women's Health Series:
Menopause

GP CARE WAKEFIELD

Group clinic agreement

By participating in this group clinic, I agree that:

1. I am happy to share relevant information about my health condition. For example, this might include my blood pressure, smoking status, body mass index (BMI) and menopause score. These results appear on a "results board" which supports group discussion and my learning.

2. I am happy to have a one-to-one discussion with the clinic team about my concerns. I understand other members of the group listen, and in turn I listen to their one-to-one discussions so that we can all benefit from hearing and understanding our common problems and finding solutions.

3. I am under no obligation to share any other personal information with the group unless I choose to do so and that if I have health concerns I don't want to discuss in the group setting, I may ask to discuss them privately.

4. At any time, I can withdraw my consent to participate in the group clinic and book a 1:1 consultation with my practice.

5. All information I learn about group members is confidential. I agree that I will not record or share any information about other group members in conversations outside the group verbally or on social media such as Facebook, Instagram etc. or in any other public forum.

6. The clinic team may use a note-taking tool, which listens to the session to help write consultation notes. A clinician checks the notes before they go into my record. I can say if I don't want the note-taking tool used.
